

**MAKE AN ENTRANCE.  
STYLE. FUNCTION. DURABILITY.**

## QUALITY, CRAFTSMANSHIP, STYLE AND INNOVATION

Andersen® storm and screen doors offer style options to enhance and complement the entryway of any home. Designed with ease of use in mind — whether buying, installing or owning — Andersen offers a solution to meet your needs.

### A STYLE FOR EVERY HOME

---

#### **Fullview Interchangeable**

Let in the maximum amount of light and air while beautifully framing your entryway.  
See pages 4-7.

#### **Fullview Retractable**

Let in an abundance of light while benefiting from convenient, anytime ventilation without removing a glass panel.  
See pages 8-11.

#### **3/4 Light Panel Ventilating**

Enhance your entryway with a classic look at an exceptional value with a solid, lower embossed panel.  
See pages 12-14.

#### **1/2 Light Panel Ventilating**

The 1/2 light panel offers traditional style with a solid, lower embossed panel.  
See pages 12-14.

#### **LuminAire® Retractable Screen Door**

SlideAway® insect screen system designed to disappear when not in use.  
See page 15.

## THE ANDERSEN DIFFERENCE

### Quality Hardware

Customize your storm door with a variety of hardware options. Select a finish and style that complements the look of your home.

### Reinforced Corners

Built-to-last\* construction featuring reinforced metal corner brackets helps the door corners stay square over time for long-lasting smooth operation.

### Quick Change

Change from insect screen to full glass panel in less than a minute with a simple flip of the handle.

### Retractable Insect Screen

Enjoy convenient anytime ventilation with a retractable insect screen that rolls into the door frame and out of view when not in use.

### SmoothControl Plus™ Close System

Our built-in dual close system is 50% stronger than standard dual closers.\*\* It has an advanced two part operation for a smoother close motion and a more consistent latch.

### SplineLoc® Insect Screen

Has 3X more holding strength than our standard insect screen and a minimal center mullion bar for maximum durability†

### Time-Saving Installations

Andersen has taken the hassle out of installing a storm door. Install with confidence with our easy and convenient installation systems. See page 16 for details.

\*Visit [andersenwindows.com/warranty](http://andersenwindows.com/warranty) for details.

\*\*Consistent complete door closure when compared to standard pneumatic dual closers.

†Visit [andersenwindows.com/warranty](http://andersenwindows.com/warranty) for details. For demonstration purposes only, do not do this at home.

# 10 SERIES FULLVIEW INTERCHANGEABLE

10 Series Fullview Interchangeable storm door in black.

## VENTILATION

Our Innovative Quick Change System allows you to go from full ventilation with our SpineLoc® Insect Screen to full glass in less than a minute with a simple flip of the handle.

RELEASE

FLIP

SWITCH

Carefully store the panel when not in use.

## OPERATION

For advanced operation, this door includes our new SmoothControl Plus™ Close System. The built-in dual closer system allows for more consistent latching and a smoother close motion. It also has an easy-to-use hold-open feature and simple close speed adjustment.

**NEW!**

**SMOOTH CONTROL+™**

**CLOSE SYSTEM**

- 50% stronger than standard dual closers\*
- Commercial-grade steel closer arm
- More consistent latch
- Easy to use hold-open feature
- Simple close speed adjustment

## SECURITY

Built-in keyed deadbolt secures the door to the frame. Choose laminated glass for added security. Doors with laminated glass include a 3-point lock built into the top, middle and bottom of the frame and shatter-resistant laminated glass.

*Note: Doors with laminated glass are not compatible with an insect screen.*

## HARDWARE OPTIONS\*

*Bold name denotes finish shown.*

## COLOR OPTIONS

## GLASS OPTIONS

- Clear Glass
- Low-E Clear Glass
- Insulating Glass
- Low-E Insulating Glass
- Laminated

\*Hardware sold separately.  
 \*\*Oil Rubbed Bronze is a "living" finish that will change with time and use.  
 Printing limitations prevent exact color duplication. See your Andersen supplier for actual finish sample.

## PERFORMANCE

Thick aluminum frame (1 1/2") with reinforced corners helps the door stay square over time for long-lasting smooth operation.

Premium double-layer weatherstrip provides added energy efficiency.

SmoothControl Plus™ close system performed better in wind durability testing.

## INSTALLATION

**RAPID INSTALL 1** **PRO INSTALL P** See page 16 for details.

10 SERIES FULLVIEW INTERCHANGEABLE: 10FV

# 8 SERIES FULLVIEW INTERCHANGEABLE

## VENTILATION

Snap out/in retainer system makes it simple to convert your door from weather protection to full ventilation with interchangeable glass and insect screen panels.

80"

Fits opening heights 80" – 80 7/8"  
Available in 78" and 84" heights

Fits double inswing hinged doors

**FITS OPENING TYPE:**  
Double-Hinged Door

**ADJUSTABLE TO WIDTHS:**  
68" – 72"

Fits opening widths 68" – 72"

**HEIGHT:**  
80"

Fits opening heights 80" – 80 7/8"  
Available in 78" and 84" heights

\*Refer to installation guide for complete instructions.  
Printing limitations prevent exact color duplication. See your Andersen supplier for actual color samples.

# INSTALLATION SYSTEMS

We're taking the hassle out of installing a storm door, so there's no second-guessing. Just a job well done the first time.

## RAPID INSTALL 1

Our **Rapid Install 1** door system is the easiest installation option available in the market today. It was designed with the DIY audience in mind. We prehang the door so there is no cutting, minimal drilling and virtually no measuring required. We cut the Z-bars to length, assemble them on the door and drill the handle holes so you don't have to. Simply take the door out of the package and set it in the opening. The entire install takes less than an hour.

## RAPID INSTALL 2

Our **Rapid Install 2** door system offers a universally handed option. It was designed with the DIY audience in mind. We provide an unassembled door with Z-bars cut to length to save time on the installation. The process takes less than two hours, and no cutting is required.

## PRO INSTALL P

Our **Pro Install** door system was designed with the professional installer in mind. We provide an unassembled door with a Z-bar of 81" that can be cut to length. An adjustable U-channel sweep makes necessary adjustments easy once the door is installed. The handle holes are predrilled to save time on the job and our twist-to-lock hardware installation makes for a quality, easy install.

<b>RAPID INSTALL 2</b>			●	●	●	●

# MEASURING GUIDE

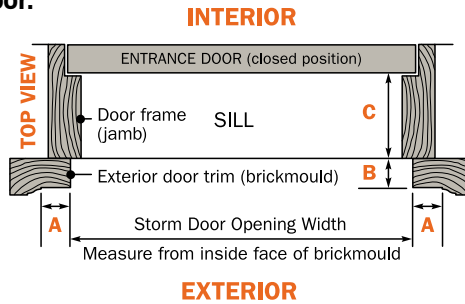

## 1 Check to ensure door opening and trim allow enough space for a storm door.

**DIMENSION A:** Minimum  $\frac{3}{4}$ " width flat trim surface required

**DIMENSION B:** Minimum 1" trim (brickmould) depth required

**DIMENSION C:** Minimum of  $2\frac{1}{2}$ " door frame (jamb) depth required\*

\*Depending on the depth and location of your entry door handle set, additional clearance may be needed.

## 2 Measure door opening in order to determine the size storm door you need.

### RECORD YOUR SHORTEST WIDTH MEASUREMENT:

**W:**

Measure the width of the door opening at the inside face of exterior trim on each side at top, center and bottom and record the shortest measurement.

(See measure points W1, W2 & W3 in the illustration at right)

### RECORD YOUR HEIGHT MEASUREMENT:

**H:**

Measure for the height from the sill to the underside of the brickmould at the top.

(See measure point H in the illustration at right)

## 3 Determine the size you need based on the door opening measurements and the storm door model that is selected.

STANDARD DOOR SIZE WIDTH RANGES:	30"	32"	34"	36"	STANDARD DOOR SIZE HEIGHT RANGES:	80"
