

# MONOGRAM<sup>®</sup> XL

Extended Length Siding

**CertainTeed**  
SAINT-GOBAIN

## Monogram XL 25 – 25 Feet

(Double 4" Clapboard only)

## Monogram XL 20 – 20 Feet

(Double 4" Clapboard only)

## Monogram XL 16 –

### First in brand use

Year after year, Certainteed Siding has been **Rated #1 in Brand Use** by remodelers, builders, architects and consumers.

On Cover:

Siding: Monogram Double 5" Clapboard in cypress.

Trim: Vinyl Carpentry® & Restoration Millwork®.

Monogram® XL is a comprehensive system of value-added features with unique benefits that combine to create a truly extraordinary siding. Monogram continues to lead the way in innovation through many important industry firsts.

**Monogram® Extended Length Siding has the same great benefits as traditional length Monogram®, plus it reduces seams.**

- ◆ **Two Classic Styles** – Three Extended Length Choices:  
Double 4" Rough Cedar Clapboard, 16' 8", 20' or 25'.  
Double 5" Rough Cedar Dutchlap, 16'.
- ◆ **Heavy-Duty .046" Thickness.**
- ◆ **TrueTexture™** rough cedar finish molded from real cedar boards. 
- ◆ **STUDfinder™** is designed for accurate and secure installation.
- ◆ **RigidForm™ 220 technology** has been tested\* to withstand wind load pressures up to 220 mph.
- ◆ **CertiLock™** self-aligning, post-formed positive lock.
- ◆ **18 low-gloss colors** with a wide variety of coordinating trim.
- ◆ **Virtually maintenance free**, never needs painting.
- ◆ **Class 1(A)** fire rating.
- ◆ **Lifetime** limited warranty.
- ◆ Works with traditional length Monogram panels.

Shown Above:

Siding: Monogram Double 4" Clapboard in natural clay.  
Trim: Vinyl Carpentry® & Restoration Millwork®.

16 Feet

Traditional Siding Panel – 12 Feet 6 Inches

### The Difference is Seamlessly Clear Two Story Wall, 25' Wide

#### Long on Looks

With traditional 12' siding panels, seams appear every two to three feet. Monogram's extended length panels can significantly reduce seams.

#### The STUDfinder™ Installation System

Monogram was the first siding engineered to include an integral installation guide on each panel. From the first nail to the last, the patented STUDfinder™ system is designed to help ensure a precise installation for optimum siding performance.

#### Indicator letters help:

- Determine location of studs
- Ensure nails are positioned correctly
- Ensure correct number of nails are used.

#### Security and Performance

- Nailing to studs provides a strong and secure connection
- Protects against blow offs from under nailing
- Protects against buckling from over nailing
- Helps avoid nailing into hazardous items between studs like plumbing or wiring

WITH STUDFINDER

POSSIBLE OUTCOME WITHOUT STUDFINDER

## A Comprehensive System of Value-Added Features

### RigidForm™ 220

This double thick .092" rolled-over nail hem design increases wind resistance and stiffens the panel. This design has been tested\* to withstand wind load pressures up to 220 mph.

\* Wind load rating per VSI wind speed calculation guidelines.

### CertiLock™

The exclusive CertiLock™ locking system features self-aligning multiple bends that snap together with an audible "click" to ensure a secure fit and more consistent installation.

### Heavy-Duty .046" Thickness

Monogram XL panels feature a true .046" thickness for outstanding strength and durability.

### 3/4" Panel Projection

A 3/4" panel projection provides excellent rigidity for straighter-on-the-wall performance.

Color performance, impact resistance and durability are assured through our exclusive PermaColor™ System, a blend of our own Certavin™ resin, superior micro-ingredients and state-of-the-art pigment chemistry.
