

Rich Appearance of Thick-Cut Shingles

Robust, thick-cut DECRA Shingle XD provides the bold look and distinct shadow lines of heavy architectural shingles in a lightweight roofing profile that is warranted to last a lifetime.

Traditional asphalt shingles must be replaced every 10-20 years due to cupping, delaminating, and blistering. As the lightest roofing material on the market, DECRA Shingle XD can eliminate the need for a complete tear-off of the existing roof, saving time, labor, and expense for roofing remodels and upgrades.

Stone-coated steel provides strength and endurance that eliminates recurring roofing replacement costs with an elegant roofing solution that stands up to hail, rain, fire, storm debris, and even hurricane-force winds.

Unsurpassed Strength Against the Elements

Wind

Up to 120 mph

Hail

Class 4
